Founded in 1981 by Doug Fraser and now run by his son Richard Fraser, Hire it has over 40 years' experience in the hire and sales of construction equipment. Our hire fleet covers a wide range of products from breakers, generators and concrete cutters to floor sanders, water pumps and generators.

Our sales division, Tool Time, manages NATIONAL EQUIPMENT SALES. We are agents for Honda, Husqvarna, Yamaha, Makita, Bosch, AKSA, and more. 40 years' experience allows us to advise of the best, most reliable products for the job because we have used the equipment in our hire fleet and know what works! Our fully fitted workshop handles all servicing & repairs, and we deliver nationwide!

Wanting to offer South Africa TUFF EQUIPMENT that won't cost an arm and a leg, we launched an in-house brand of equipment called KWAGGA. Powered by Honda engines, these machines are reliable yet affordable due to local assembly. We're so proud that rugby legend, Kwagga Smith himself, endorses the brand and uses the equipment on his farm! The Kwagga range comes standard with a one-year warranty.
